

**Gillian Morrison (Interim Chief Officer)**

Orkney Health and Care

01856873535 extension: 2611

[OHACfeedback@orkney.gov.uk](mailto:OHACfeedback@orkney.gov.uk)

Agenda Item: 7.

## **Integration Joint Board**

Date of Meeting: 29 October 2020.

Subject: Joint Inspection of Services for Children and Young People in Need of Care and Protection in Orkney.

### **1. Summary**

1.1. In February 2020 the Care Inspectorate published the Joint Inspection of Services for Children and Young People in Need of Care and Protection in Orkney, which identified a number of improvement areas. There are currently 33 Improvement Areas. The progress to date on the Looked After Children Review, detailed in section 5, directly links to the progress on the improvement areas.

### **2. Purpose**

2.1. To advise Members of the progress on the Joint Inspection of Services for Children and Young People in Need of Care and Protection Improvement Plan.

### **3. Recommendations**

The Integration Joint Board is invited to:

3.1. Note the updates in relation to staffing and service delivery, set out in sections 4 and 5 of this report.

3.2. Scrutinise and seek assurance on progress with actions contained in the Joint Inspection of Services for Children and Young People in Need of Care and Protection Improvement Plan, attached as Appendix 1 to this report.

### **4. Staffing Update**

4.1. An interim Service Manager – Children and Families has recently been recruited and started on 5 October 2020. There had been some delay in identifying a start date for the Public Protection Nurse due to accommodation issues. This has been resolved by inter-agency working and a start date should be advised imminently.

### **5. Looked After Children Review Update**

5.1. In June 2019, the IJB approved the recommendations contained within the Looked After Children (LAC) review, which can be found [here](#). The key thematic areas highlight:

## 5.2. Early Intervention

### **Key Issue 1: The Social Work Duty service is provided in an ad hoc way resulting in varying approaches to referral from partner agencies.**

5.2.1. We have tightened the process of Duty to ensure there is a named Duty Social Worker responding to all enquiries, calls and referrals linked with the Administrative Support Team to ensure adherence to the Customer Charter. All Duty referrals are now overseen by the Duty Operational Manager. We have clarified roles and responsibilities of Social Workers in receiving and responding to Child Protection concerns and referrals, as well as Operational Managers for ensuring managerial oversight of the Duty system to review and ensure appropriate and proportionate action is taken, in a timely manner in relation to our duty to protect children.

5.2.2. All documents are stored in the child's electronic file – detailing the outcome, Named Persons are informed and feedback provided timeously. Inter-agency Referral Discussions, when held, are recorded.

5.2.3. We have issued Interim Inter-agency Child Protection Guidelines (easily accessible on computer desktops) which provide clear step by step actions for referring agencies and for appropriate responses from Social Work, the Police and NHS Orkney. Training and reflective discussions have been held with all staff on the new Guidelines, which is also referred to when discussions are being held with partner agencies.

5.2.4. Within the Improvement Plan Delivery Group, it has also been made clear that referring agencies are entitled to feedback and where for any reason this has not been provided, they should escalate the matter as required.

5.2.5. Within the Interim Inter-agency Child Protection Guidelines, we have strengthened the section on Inter-agency Referral Discussions and we have a "Draft Inter-agency Referral Discussion Procedure" under review for agreement and implementation.

### **Key Issue 2: Skilled family support workers are being used to carry out tasks that do not make full use of their skills but are still statutory duties.**

5.2.6. We are extending the contracts of 3 additional Family Support Workers in recognition of the valuable work they undertake directly with children, families and young people. Their important roles have been highlighted to managers in a paper from the Chief Social Work Officer (CSWO) and there is a review of the process for their engagement with families as requested by allocated Social Workers.

5.2.7. The Family Support Team provides additional support to our most vulnerable children, young people and families and they are an integral part of the Children and Families Social Work Service. As such, there will be no requirement for Social Workers to "make a referral" for their services. Instead there will be planned meetings to discuss the specific roles and joint working requirements to ensure maximum support. This will clarify roles and responsibilities to ensure their skills, engagement abilities, relationship building qualities and practical support will be fully recognised.

5.2.8. There will continue to be times when their flexibility and responsiveness to social need will be required, meaning their roles may be extended, with appropriate support and supervision, to meet need in times of particular challenge or crisis. The team has demonstrated, particularly during times of critical staff absences in the Children and Families Team, their willingness and ability to act up into such roles.

### **5.3. Edge of Care, including Looked After at Home Children**

**Key Issue 1: Intensive support services are not designed to offer flexible crisis care within an evidence-based approach.**

5.3.1. We have awarded a contract for early support and assistance (intervention) to Action for Children and are finalising arrangements for location and operations. This will not be a solution in itself but will be part of an early support and diversion approach which will be developed through the review of our GIRFEC (Getting it Right for Every Child) Guidelines. This will include strengthening the Team around the Child approach and introduction of the Whole Systems Approach (which is evidenced-based) which requires further partnership work and understanding.

5.3.2. The CSWO has met with the Chief Executive of Voluntary Action Orkney to explore greater connectivity and joint working arrangements with Third Sector partners to support children and families. There is potential for the Enhancing Wellbeing in Our Island Communities project to be extended to include children, young people and families with news that funding for the project has been continued for a further two years. The project deploys Co-ordinators whose role is distinctive from other kinds of support worker or link worker roles in Orkney, in its dual focus on one to one support and advice for individuals in the islands, and a focus on the development and support of services in the islands to meet the needs of residents.

### **5.4. Looked After and Accommodated Children and Young People**

**Key Issue 1: The residential estate is not fit for purpose to deliver the statutory duty to allow young people to remain in their care setting until their 21st birthday.**

5.4.1. There are a range of practical and operational challenges associated with caring for young people up to the age of 21 in a house for 4 young people who can range in ages from 12 to 21. Currently we are supporting 2 young people in Continuing Care (from 18 years to 21 years).

5.4.2. The building has been designed with a mix of both en-suite and family bathrooms and older young people have the en-suite bedrooms. In addition, they can have items in their rooms such as a mini fridge and kettle to enable them to be more independent. There are parental conversations with our young people over the age of 18 about access and storage of alcohol which has been accommodated by providing young people with secure lockers / space to store any alcohol with responsibility to ensure it is kept safe.

5.4.3. Young people are encouraged and supported to have independent living skills, having their own food cupboards and budgets to cook a weekly meal.

**Key Issue 2: The capacity of the fostering service is insufficient to meet placement demands.**

5.4.4. There is a national shortage of foster carers particularly for; older children, large sibling groups, children who display aggressive and sexualized behavior and children with disabilities.

5.4.5. Rural and island communities are particularly impacted and it has been challenging to recruit the number of carers for our need. For example, our Intensive Fostering Service (IFS) is funded for 5 carers and we have managed to recruit 3.

5.4.6. Recruitment activity has been continuing with new materials developed using a media recruitment agency. The team was present at local shows to provide first-hand information and answer questions. COVID-19 has restricted face to face work and created new challenges and there are currently discussions with the Council's Communications Team to increase our media presence on various social media platforms.

5.4.7. A particular success has been the development of the Orkney Fostering Facebook pages - this shares articles and allows questions directly to members of the team.

**Key Issue 3: There is a limited range of mental health support services available to meet both the specialist and general mental health and wellbeing needs of looked after children.**

5.4.8. The Child and Adolescent Mental Health Service (CAMHS) has a positive working relationship with the Children's House and is regularly invited to team meetings to discuss mental health and wellbeing and individual support for young people.

5.4.9. Third Sector counselling services staff have been invited to team meetings and young people have been referred to services e.g. Y People Counselling.

5.4.10. Orkney Rape Crisis has provided a number of informal sessions for young people on issues of sexual health and they have built positive relationships with young people.

**Key Issue 4: There is no independent oversight of looked after children placements. Such oversight is critical to ensure outcomes are being met and where outcomes are not being met corrective action is taken in good time.**

5.4.11. We have employed a temporary Independent Reviewing Officer to address this action.

## **5.5. Continuing Care**

**Key Issue 1: There is a gap in service provision of supported tenancies that can effectively bridge the gap between leaving care and independence. This is the delivery of statutory supports to the young person's 26th birthday.**

5.5.1. Young People supported accommodation is available but this generally does not meet the needs of care experienced young people who need increased support packages. Supported Tenancies with a continuation of support being provided by the Children's Houses would be beneficial and could be tailored to the young person's needs which will be explored with Housing Services.

**Key Issue 2: There is a gap in service provision of consistent support to care experienced young people at points of crisis. This is related to the delivery of statutory supports to the young person's 26th birthday.**

5.5.2. Support to care experienced young people is provided predominantly by the Youth Services post which is 28 hours per week.

5.5.3. The current requirement for throughcare and aftercare is 41 young people who are entitled to receive support to age 26 years. This varies from intensive social work support to practical help. Social Care Workers are allocated as Pathways Supporters and their priority is young people in the Children's Houses.

5.5.4. Social Care Workers, who cover 24 hours over 7 days per week, provide vital emergency support and generally know the young people well, although their capacity is limited by way of providing more regular planned support.

5.5.5. We have a Draft Continuing Care policy which addresses the implications of the Children and Young People (Scotland) Act 2014 and our responsibilities for providing Continuing Care for young people and the financial implications. In addition, the policy will address the key transitions to Continuing Care from Foster Care, Kinship Care and Residential Care.

5.5.6. We have also developed a Draft Financial Policy for Throughcare and Aftercare which sets out the principles for the provision of Financial Support, Leaving Care Grant and associated housing costs, living costs for 16 and 17 year old young people, additional grants and allowances, and the payment procedure.

## **5.6. Learning and Development.**

**Key Issue 1: Investment in the practice framework is key in maintaining skills and knowledge and in developing a child centred culture of service delivery that can deliver the outcomes of this review.**

5.6.1. An IJB development session was held on 28 January 2020, to explore progress on Children Services and share ideas. It was recognised that more work done in early intervention will prevent children and young people from becoming Looked After. For early intervention to work there needs to be collaboration with young people and partnership with Third Sector, Education, and the Police. It was highlighted that not one service has the solution as solutions are to be found across the range of services.

## 6. Joint Inspection of Services for Children and Young People in need of Care and Protection

6.1. At the request of Scottish Ministers, the Care Inspectorate leads on joint inspections for children and young people in need of care and protection across Scotland. These inspections consider the differences the community planning partnerships are making to the lives of children and young people in need of care and protection; or for whom community planning partnerships have corporate parenting responsibilities.

6.2. Between 26 August and 4 October 2019, the Orkney Community Planning Partnership was inspected in on its services for children and young people in need of care and protection. The inspection was led by the Care Inspectorate and published the report detailing its findings on 25 February 2020.

6.3. These inspections take account of the full range of work with children and young people in need of care and protection and their families within a community planning partnership area. The inspections focus on answering five key questions:

- How good is the partnership at recognising and responding when children and young people need protection?
- How good is the partnership at helping children and young people who have experienced abuse and neglect stay safe, healthy and recover from their experiences?
- How good is the partnership at maximising the well-being of children and young people who are looked after?
- How good is the partnership at enabling care experienced young people to succeed in their transition to adulthood?
- How good is collaborative leadership?

6.4. The Care Inspectorate published a revised quality framework for children and young people in need of care and protection in July 2019. This is the framework used in the inspection and consists of 22 quality indicators. This framework is based on European Foundation for Quality Management (EFQM). Of these 22 indicators, the inspection report applies evaluation to the following indicators:

Date.	Indicator.	Grade.
26.02.20.	Improvements in the safety, wellbeing and life chances of vulnerable children and young people.	Weak.
	Impact on children and young people.	Weak.
	Impact on families.	Adequate.
	They also provide an overall evaluation for leadership.	Unsatisfactory.

6.5. The report identified the following strengths and areas for improvement:

- Strengths:
  - The majority of children and young people in need of care and protection and their families benefited from genuine and enduring relationships with a key member of staff or carer.
  - The majority of care leavers were well supported in their transition to adulthood by staff providing aftercare and others helping them with accommodation, further education and employability.
  - Together, children's panel members, the children's reporter and social workers went out of their way to make the experience of attending a children's hearing as child centred as possible and to provide continuity for those attending review hearing on mainland Scotland.
- Priority areas for improvement:
  - Ensuring key child protection processes including inter-agency referral discussions, risk assessment, case conferences and core groups work effectively to protect children at risk of harm.
  - Publishing comprehensive up-to-date inter-agency child protection guidelines and training staff on these to clarify roles and responsibilities, and to help staff to be confident in their work.
  - Bringing about a step change in impact of corporate parenting by delivering tangible improvements in the wellbeing and life chances of looked after children, young people and care leavers.
  - Strengthening key child protection processes, fully implementing the Getting it right for every child (GIRFEC) approach, and commissioning services to meet priority areas of need including therapeutic and family support services.
  - Improving the effectiveness and oversight of the public protection committee in carrying out core functions to protect children and young people.

6.6. An action plan has been developed which is routinely updated and monitored.

6.7. This action plan, entitled the 'Orkney Partnership Child Protection Improvement Plan' is attached to this report. There are currently 33 Improvement Areas. The progress to date on the Looked After Children Review, detailed earlier, directly links to the progress on the improvement areas.

6.8. The key points within the Orkney Partnership Child Protection Improvement Plan will apply to those who are referred to children's services and who are in need of care and protection.

## **7. Contribution to quality**

Please indicate which of the Orkney Community Plan 2019 to 2022 visions are supported in this report adding Yes or No to the relevant area(s):

<b>Resilience:</b> To support and promote our strong communities.	Yes.
<b>Enterprise:</b> To tackle crosscutting issues such as digital connectivity, transport, housing and fuel poverty.	No.
<b>Equality:</b> To encourage services to provide equal opportunities for everyone.	Yes.
<b>Fairness:</b> To make sure socio-economic and social factors are balanced.	Yes.
<b>Innovation:</b> To overcome issues more effectively through partnership working.	No.
<b>Leadership:</b> To involve partners such as community councils, community groups, voluntary groups and individuals in the process.	Yes.
<b>Sustainability:</b> To make sure economic and environmental factors are balanced.	Yes.

## 8. Resource implications and identified source of funding

8.1. There are significant financial implications associated in delivery of services to ensure appropriate and effective services for children and young people in need of care and protection. The improvement planning actions and outcomes required as a result of this inspection will involve identifying additional resources, inclusive of human, capital and revenue going forward.

## 9. Risk and Equality assessment

9.1. None resulting from this report, but as new initiatives and services changes are identified these will be developed.

## 10. Direction Required

Please indicate if this report requires a direction to be passed to:

NHS Orkney.	No.
Orkney Islands Council.	No.
Both NHS Orkney and Orkney Islands Council.	No.

## 11. Escalation Required

Please indicate if this report requires escalated to:

NHS Orkney.	No.
Orkney Islands Council.	No.
Both NHS Orkney and Orkney Islands Council.	No.

## **12. Authors**

12.1. Gillian Morrison (Interim Chief Officer), Integration Joint Board.

12.2. Jim Lyon, Interim Chief Social Work Officer, Orkney Health and Care.

## **13. Contact details**
