

Item: 5

Orkney Islands Area Licensing Board: 27 April 2023.

Licensing (Scotland) Act 2005.

Review of Statement of Alcohol Licensing Policy – Overprovision.

Report by Clerk to the Board.

1. Purpose of Report

To consider a statement on overprovision of alcohol licensed premises to be incorporated within the Board's draft Statement of Alcohol Licensing Policy 2023.

2. Recommendations

The Board is invited to note:

2.1.

That, on 19 January 2023, the Board resolved that the Clerk to the Board should undertake statutory consultation on whether or not there was overprovision of alcohol licensed premises within the locality determined by the Board, namely Orkney as a whole.

2.2.

That the statutory consultation process was undertaken during the period 20 January to 17 March 2023, with the outcome detailed in section 9 of this report.

It is recommended:

2.3.

That the Board determines whether the consultation responses, detailed in section 9 of this report, meet the terms of the legislation and guidance issued by the Scottish Government.

2.4.

That the Board determines whether the results of the consultation on overprovision of licensed premises or licensed premises of a particular description within Orkney demonstrate, on a balance of probabilities, a "dependable causal link" between the availability of alcohol in Orkney and alcohol-related harm, whereby, based on the evidence of harm in Orkney, it is more likely than not that alcohol availability is a cause of harm, or that increasing the availability of alcohol in Orkney will increase that harm.

2.5.

That, should the Board make a determination that no evidence of overprovision of licensed premises or licensed premises of a particular description exists in the locality of Orkney, the statement on overprovision of alcohol licensed premises, attached as Appendix 6 to this report, be incorporated within the Board's draft Statement of Alcohol Licensing Policy 2023.

3. Introduction

3.1.

In accordance with the Licensing (Scotland) Act 2005, the Orkney Islands Area Licensing Board (the Board) is under a duty to publish a Statement of Alcohol Licensing Policy, the current version of which is available from the Related Downloads section of the following Council webpage [here](#).

3.2.

The Board is under a duty to publish in its Policy a statement on the extent to which it considers there to be overprovision of licensed premises or licensed premises of a particular description in any locality or localities within the area of the Board. The locality can be the whole Board area.

3.3.

The Board's current Statement of Alcohol Licensing Policy contains the following statement in relation to overprovision:

“On 3 May 2018, the Board determined that there is no overprovision of licensed premises or licensed premises of a particular description within the locality of Orkney defined by the Board.

The Board concluded that there was not a dependable causal link between the evidence provided to the Board and the operation of licensed premises, to suggest that a saturation point had been reached, or was close to being reached, within the locality of Orkney defined by the Board.”

3.4.

Following local government elections in May 2022 and the appointment of members to the Board, an updated Statement of Alcohol Licensing Policy must be published by November 2023.

3.5.

At its meeting held on 19 January 2023, the Board noted:

- That the Board's current Statement of Alcohol Licensing Policy, adopted on 6 December 2018, required review during 2023.
- That the Statement of Alcohol Licensing Policy must, in particular, include a statement as to the extent to which the Board considered there to be

overprovision of licensed premises or licensed premises of a particular description in any locality within the Board's area.

- That the first stage of the process in updating the Statement of Alcohol Licensing Policy was for the Board to determine the locality or localities for the purpose of consultation on the assessment of overprovision.
- That the locality for the purpose of assessing overprovision could be the whole Board area.

3.6.

The Board subsequently resolved:

- That, for the purposes of consultation on the assessment of overprovision of alcohol licensed premises, the locality should be Orkney as a whole.
- That the Clerk to the Board should undertake statutory consultation on whether or not there was overprovision of alcohol licensed premises within the locality determined by the Board, namely Orkney as a whole.
- That the Clerk to the Board should submit a report, to the meeting of the Board to be held on 27 April 2023, on the outcome of the consultation, referred to above.

4. Background

4.1.

In terms of section 6 of the Licensing (Scotland) Act 2005 (the Act), the Board must publish an updated Statement of Alcohol Licensing Policy by November 2023.

4.2.

When preparing its Policy, the Board is required to indicate how it will carry out its licensing functions so as to promote the five licensing objectives, being:

- Preventing crime and disorder.
- Securing public safety.
- Preventing public nuisance.
- Protecting and improving public health.
- Protecting children and young persons from harm.

4.3.

The Statement of Alcohol Licensing Policy requires to set out the policies to be applied by the Board to promote the licensing objectives when determining applications. In addition, regard must be had to [Guidance](#) issued by the Scottish Government.

4.4.

Section 7 of the Act requires that each licensing policy statement published by a licensing board must, in particular, include a statement as to the extent to which the board considers there to be overprovision of licensed premises or licensed premises of a particular description in any locality within the board's area. The Board may determine that the whole of the Board's area is a locality.

4.5.

In considering whether there is overprovision in any locality, the Board must:

- Have regard to the number and capacity of licensed premises in the locality.
- Have regard to such other matters as the Board thinks fit including, in particular, the licensed hours of licensed premises in the locality.
- Consult the persons specified at section 4.6 below.

4.6.

The consultees are:

- The Chief Constable.
- The relevant health board.
- Such persons who appear to be representative of the interests of:
 - Holders of premises licences for premises within the locality.
 - Persons resident in the locality.
- Such other persons as the Board thinks fit.

4.7.

Overprovision is one of five possible grounds for refusal of a premises licence application and would be relevant if the Board considers that, if the application were to be granted, there would, as a result, be overprovision of licensed premises, or licensed premises of the same or similar description as the subject premises, in the locality.

5. Scottish Government Guidance on Overprovision

5.1.

In 2007, the Scottish Government provided Guidance to assist boards in formulating their assessments. The [Guidance](#) was updated in January 2023. The Board is:

- Required to take a proactive position on overprovision and identify those localities in which it would propose not to grant new licences or licences for premises of a particular description.
- Allowed to take account of the “particular description” of premises, that is their styles of operation, when assessing overprovision.

- Directed to have regard to the number and the capacity of licensed premises in localities.

5.2.

Previous Guidance issued in 2007 provided that “the results of all consultation should be evaluated to identify robust and reliable evidence which suggests that a saturation point has been reached or is close to being reached, always provided that a dependable causal link can be forged between that evidence and the operation of licensed premises in a locality”.

5.3.

Updated Guidance issued in 2023 retains the reference to a “dependable causal link” by providing:

“Consideration should be given as to whether aggregate information and evidence from a number of sources demonstrates a link between the availability of alcohol in an area and alcohol-related harm.

To demonstrate a “dependable causal link”, the proof of the link must be on a balance of probabilities. What this means in practice is that based on the evidence of harm in a locality, it is more likely than not that alcohol availability is a cause, or that increasing the availability of alcohol in that area will increase that harm.”

5.4.

Where a board’s policy statement has concluded that, in a particular locality, there is an overprovision of licensed premises or premises of a particular description, an application for a new premises licence or for the variation of an existing licence in that locality may normally be refused on the ground of overprovision.

5.5.

However, each application requires to be determined on its own merits. There may be cases where the applicant can demonstrate that grant of the application would not undermine the licensing objectives or those objectives would not be undermined if the applicant’s operating plan or layout plan was modified or the grant of the licence made subject to appropriate conditions.

5.6.

Accordingly, there must be room for exceptions. Previous Guidance issued in 2007 stated that a numerical quota of licensed premises or premises of a particular description in a locality should not be set, while updated Guidance issued in 2023 provides that there is no simple numerical formula for pinpointing the threshold between provision and overprovision.

5.7.

Current Guidance issued in 2023 retains Guidance from 2007 that members' clubs should be discounted for the purposes of overprovision assessments carried out by licensing boards provided they meet the criteria for such clubs specified in terms of regulations made under the Act. There are nine members' clubs in Orkney which all meet the relevant criteria.

5.8.

Statistics relating to the geographical distribution of licensed premises in Orkney, including their capacities and operating hours, with the exception of members' clubs, are attached as Appendix 1 to this report.

5.9.

With reference to section 5.1 above, the statistical information referred to at section 5.8 above gives a broad indication of the "type" of premises, that is their styles of operation. However, named types of premises licences ceased when the Act came into effect and premises can only correctly be identified as providing on-sales facilities; off-sales facilities; or both on-sales and off-sales facilities.

5.10.

Statistics relating to the geographical locations of premises and their numbers, assessed as on-sales, off-sales or both types of sales, are attached as Appendix 2 to this report.

5.11.

With reference to section 5.10 above, in Orkney, there are currently:

- 14 on-sales premises with total capacity of 3,532 persons.
- 36 off-sale premises with total alcohol display capacity of 689.72 square metres.
- 46 premises licensed for both on and off-sales with total capacity of 6,834 persons and total alcohol display capacity of 400.39 square metres.

5.12.

Previous Guidance issued in 2007 which provided that licensing boards should not take into account the need or demand for licensed premises in the locality, as commercial considerations are irrelevant to boards' policies, has been removed from the Guidance issued in 2023.

6. Determining Localities: Preliminary Statistical Data Collection

6.1.

In determining the "localities" within the Board's area for the purposes of the Act, the Board may determine that the whole of the Board's area is a locality. Selection of locality is a matter for the Board and will involve the use of its own local knowledge.

6.2.

On 29 September 2022, the Clerk to the Board issued emails to the organisations specified in section 6.3 below, as a preliminary step to the policy review process. The purpose of the emails was to request statistical data to assist the Board in identifying localities where there is overprovision of licensed premises, or premises of a particular description, within its area. The organisations were provided with statistical information similar to that attached as Appendices 1 and 2 to this report and responses were requested by 11 November 2022.

6.3.

The emails were issued to the following organisations:

6.3.1.

NHS Orkney, regarding:

- Alcohol related hospital admissions.
- Alcohol related deaths.
- Chronic liver disease deaths and hospital admissions.
- Alcohol related brain damage.
- Proportion of individuals who were alcohol dependent.
- Alcohol related Accident and Emergency attendances.
- Alcohol brief interventions.

6.3.2.

Orkney Alcohol and Drugs Partnership, regarding:

- Alcohol specific offences.
- Alcohol attributable offences.
- Perceptions of prevalence of neighbourhood problems where alcohol was believed to be a factor.

6.3.3.

Orkney Health and Social Care Partnership, regarding:

- Caseload in which problem alcohol use had been identified.
- Alcohol addiction problems in Children and Families Team cases.
- Alcohol addiction problems in Criminal Justice Team cases.
- Alcohol addiction problems in accommodated children and young people cases.

6.3.4.

Orkney Local Licensing Forum, regarding any data which it considered relevant.

6.3.5.

Orkney Partnership, regarding:

- Incidents of anti-social behaviour and other types of public disorder linked to alcohol use.
- Alcohol related ambulance call outs.
- Noise complaints relating to licensed premises.

6.3.6.

Police Scotland, regarding:

- Alcohol specific offences.
- Alcohol attributable offences.
- Reports by victims of violent crime that offender was under influence of alcohol.
- Offences in which alcohol was known to be an aggravating factor.
- Alcohol related domestic abuse.

6.3.7.

Scottish Fire and Rescue Service, regarding numbers of fires where impairment due to suspected alcohol use was a contributory factor.

6.4.

One response to the request for statistical data was received from NHS Orkney, which compared statistics relating to Orkney with those relating to Scotland but did not provide statistics relating to smaller areas within Orkney.

7. Determining Localities: Identification

7.1.

The Board's approach to determining "localities" must be evidence-led. The Board must identify the proposed locality before an assessment of overprovision can be carried out.

7.2.

To conduct an assessment of overprovision and allow the Board to lawfully and rationally conclude that a state of overprovision does or does not arise in that chosen locality, the Board must:

- Have regard to the issue of capacity and numbers of licensed premises in the identified locality.
- Be able to show that it has identified a dependable causal link, on a balance of probabilities, between the operation of licensed premises in the identified locality and relevant harms.

7.3.

The Clerk to the Board conducted a preliminary statistical data collection exercise from 29 September to 11 November 2022, detailed in section 6 above. One response was received, from NHS Orkney, which compared statistics relating to Orkney with those relating to Scotland but did not provide statistics relating to smaller areas within Orkney.

7.4.

Given the sole response to the preliminary statistical data collection exercise and the current absence of alternative evidential information, the Board took the view that the locality, for the purpose of consultation on the assessment of overprovision, should be the whole of Orkney.

7.5.

The approach set out in section 7.4 above does not preclude subsequent alternative findings by the Board. For example, after consideration of evidence received as a result of the consultation on the assessment of overprovision, the Board could determine that a different locality or localities should apply.

8. Assessment of Overprovision: Consultation

8.1.

When conducting an assessment of overprovision, the Board should:

- Assess the evidence presented and then consult upon what the information may show.
- Consider the responses to the consultation before determining the overprovision position.

8.2.

The Clerk to the Board undertook the statutory consultation process on assessment of overprovision of alcohol licensed premises in Orkney during the period 20 January to 17 March 2023.

8.3.

The following stakeholders were consulted:

- Citizens Advice Bureau (Orkney).
- Community councils.
- Environmental Health Service.
- Holders of premises licences throughout Orkney.
- Licensing Standards Officer.
- Local firms of solicitors.
- Local Licensing Forum.

- NHS Orkney.
- Orkney Alcohol and Drugs Partnership.
- Orkney Health and Social Care Partnership.
- Orkney Partnership.
- Police Scotland.
- Residents via a public notice on www.orkney.gov.uk.
- Scottish Fire and Rescue Service.
- Voluntary Action Orkney.

8.4.

The same questions indicated at section 6.3 above were put again to the relevant stakeholders referred to at section 8.3 above. Stakeholders who had not previously been asked for data, as referred to at section 6.3 above, were given the background to the consultation, as set out in this report, and were advised that the Board would like to hear from them with their views on whether there is overprovision of licensed premises, or premises of a particular description, in Orkney or in any locality or localities within Orkney.

9. Responses to Consultation

9.1.

A response to the consultation was received from Orkney Health and Social Care Partnership by email dated 20 January 2023, advising that they were very interested in this area of consultation, but unfortunately did not have a social work information system which could help them to respond with data relevant to the questions to them, detailed at section 6.3.3 above.

9.1.1.

The Board requires to determine whether the response from the Orkney Health and Social Care Partnership meets the terms of the legislation and guidance detailed at section 5.3 above.

9.2.

A response to the consultation was received from the Chair of the Local Licensing Forum by email dated 26 January 2023, stating:

“On behalf of the Local Licensing Forum there is no overprovision of Licensing Premises or Licensing Premises of any particular description within Orkney.”

9.2.1.

The Board requires to determine whether the response from the Chair of the Local Licensing Forum meets the terms of the legislation and guidance detailed at section 5.3 above.

9.3.

A response to the consultation was received from a licensed hotel in Kirkwall by email dated 28 January 2023, stating:

“Due to the aftermath of Covid and the current economic climate, ‘on sales’ have declined greatly leaving licensed operators struggling to survive at the present time. Many establishments are finding they must shut to stay afloat. They are using other avenues of business to supplement the revenue stream from the decline in monitored alcohol consumption on premises.

Purchasing of alcohol from ‘off sales’ premises have increased to the detriment of the public. This situation is due to the unmonitored consumption of alcohol out with licensed premises and has had an impact on general well being and mental health of locals.

I would recommend that there is an overprovision in the area at the present time and no more ‘on sales’ or ‘off sales’ licenses should be granted.”

9.3.1.

The Board requires to determine whether the response from the licensed hotel meets the terms of the legislation and guidance detailed at section 5.3 above.

9.4.

A response to the consultation was received from the Council’s Community Council Liaison Officer by email dated 16 February 2023, advising that one community council – Kirkwall and St Ola – had provided a response stating:

"The Community Council’s response to this consultation is that they do not think there is overprovision of licensed premises, or licensed premises of any particular description, within the locality, being Orkney as a whole."

9.4.1.

The Board requires to determine whether the response from the community council meets the terms of the legislation and guidance detailed at section 5.3 above.

9.5.

A response to the consultation was received from the Council’s Environmental Health Team and Licensing Standards Officers by email dated 9 March 2023, stating:

“We have examined our files and can advise that we have no records of incidents of anti-social behaviour and other types of public disorder which we can directly correlate or show a causative link to alcohol use.

We have examined our files and can advise of the following “noise complaints relating to licensed premises” received and recorded by the council’s environmental health team over the lifetime of the previous statement of licensing policy. These are

shown in table 1 below and have been anonymised for the purposes of data protection and confidentiality. None of the complaints resulted in the service of abatement notices.

Table 1 noise complaints received relating to licensed premises recorded by environmental health.

| Date (year) | Location | Details |
|--------------------|-----------------|--|
| 2018 | Kirkwall | “Complaint about noisy customers of the premises” |
| 2021 | Kirkwall | “Noise and mess from folk in lane when leaving the premises” |
| 2022 | Kirkwall | “Complaint about noise of DJ'ing at the outdoor venue” |
| 2022 | Kirkwall | “Noise from music in the kitchen in the premises” |

There have been no occasions recorded where in the course of inspecting the area officers have determined noise from licensed premises amounting to a statutory nuisance.

Therefore, we submit that we have no evidence to demonstrate a dependable causal link between the availability of alcohol in the locality and alcohol-related harm. We therefore support the Board’s view that there is no overprovision at this present time.

We trust this information is of assistance. We would be pleased to respond to any future consultations regarding the development of the new licensing policy.”

9.5.1.

The Board requires to determine whether the response from the Environmental Health Team and Licensing Standards Officers meets the terms of the legislation and guidance detailed at section 5.3 above.

9.6.

A response to the consultation was received from Police Scotland by email dated 11 March 2023, providing data which they considered relevant to the questions to them, detailed at section 6.3.6 above. The response is attached as Appendix 3 to this report.

9.6.1.

The Board requires to determine whether the response from Police Scotland meets the terms of the legislation and guidance detailed at section 5.3 above.

9.7.

A response to the consultation was received from NHS Orkney by email dated 14 March 2023, providing data which they considered relevant to the questions to them, detailed at section 6.3.1 above.

9.7.1.

At their meeting on 19 January 2023, the Board noted that the submission provided by NHS Orkney in response to a request for statistical data, as noted at section 6.4 above, was dated some years previously and that they would like more up to date information to help them with the review of Policy.

9.7.2.

NHS Orkney noted in their email dated 14 March 2023 that they had “attached the paper again with the most up to date information available currently.” The email and paper are attached as Appendix 4 to this report.

9.7.3.

The Board requires to determine whether the response from NHS Orkney meets the terms of the legislation and guidance detailed at section 5.3 above.

9.8.

A response to the consultation was received from the Scottish Fire and Rescue Service (SFRS) by email dated 15 March 2023 in the form of an Excel spreadsheet, providing data which they considered relevant to the questions to them, detailed at section 6.3.7 above.

9.8.1.

SFRS advised that the spreadsheet related to “all fires on Orkney from 2018/19 to the current year to date. There are two tabs in the spreadsheet, the data tab contains the incidents and the summary page contains two pivot tables. The first pivot table provides all fires by incident type and fiscal year. While the second table shows the number of primary fires where alcohol/drugs were thought to be a contributory factor in the fire. The initial request asked for alcohol related incidents only, however our Incident Recording Data question includes alcohol and or drugs.”

9.8.2.

The response has been converted to PDF and is attached as Appendix 5 to this report. The first page of the Appendix shows the summary information in the form of two pivot tables referred to by SFRS and pages 2 to 5 show the records of incidents referred to by SFRS.

9.8.3.

The Board requires to determine whether the response from SFRS meets the terms of the legislation and guidance detailed at section 5.3 above.

10. Draft Statement on Overprovision

10.1.

The Board requires to determine whether the results of the consultation on overprovision of licensed premises or licensed premises of a particular description demonstrate, on a balance of probabilities, a “dependable causal link” between the availability of alcohol in Orkney and alcohol-related harm, whereby, based on the evidence of harm in Orkney, it is more likely than not that alcohol availability is a cause of harm, or that increasing the availability of alcohol in Orkney will increase that harm.

10.2.

It would not be advisable for the Board to make a finding of overprovision of licensed premises or licensed premises of a particular description unless it is satisfied that evidence to the standard required in terms of the legislation and guidance has been provided, as otherwise the Board would face exposure to risk of challenge to its Statement of Alcohol Licensing Policy.

10.3.

Should the Board make a determination that no evidence of overprovision of licensed premises or licensed premises of a particular description exists in the locality of Orkney, it is recommended that the statement on overprovision of alcohol licensed premises, attached as Appendix 6 to this report, should be incorporated within the Board’s draft Statement of Alcohol Licensing Policy 2023.

10.4.

The approach set out in section 10.3 above does not preclude subsequent alternative findings by the Board. For example, after consideration of evidence received as a result of the consultation on the draft revised Statement of Alcohol Licensing Policy later this year, the Board could determine that a different locality or localities should apply.

11. Later Stages in Policy Review

11.1.

During 2023, the Board will require to:

- Consider a draft revised Statement of Alcohol Licensing Policy (June 2023).
- Consult upon the draft revised Policy with those consultees detailed below.
- Assimilate all responses received in response to the consultation on the draft revised Policy and take them account before adopting a revised Policy (October 2023).

11.2.

When consulting upon its draft revised Statement of Alcohol Licensing Policy, the Board must consult with the Local Licensing Forum, the relevant health board and the following, in so far as they are not represented in membership of the Local Licensing Forum:

- Holders of premises licences and personal licences.
- The Chief Constable.
- Persons having functions relating to health, education or social work.
- Young people.
- Persons resident within the Forum's area.
- Such other persons as the Board thinks appropriate.

12. Financial Implications

There are no direct financial implications to the Board arising from the recommendations of this report

13. Legal Aspects

The legal aspects are contained within the body of this report.

14. Contact Officers

Gavin Mitchell, Clerk to the Board, extension 2233, email gavin.mitchell@orkney.gov.uk.

Sheila Tulloch, Depute Clerk to the Board, extension 2213, Email sheila.tulloch@orkney.gov.uk.

Elaine Sinclair, Legal Clerk, extension 2232, email elaine.sinclair-hill@orkney.gov.uk.

15. Appendices

Appendix 1: Statistics relating to geographical distribution, capacities and operating hours of licensed premises in Orkney, with the exception of members' clubs.

Appendix 2: Statistics relating to the geographical locations of premises and their numbers, assessed as on-sales, off-sales or both types of sales.

Appendix 3: Consultation response from Police Scotland.

Appendix 4: Consultation response from NHS Orkney.

Appendix 5: Consultation response from Scottish Fire and Rescue Service.

Appendix 6: Possible statement on overprovision to be incorporated within the Board's draft Statement of Alcohol Licensing Policy 2023.

Appendix 1

Orkney Islands Area Licensing Board – Premises Licences – Excluding Members’ Clubs – Locations, Types, Hours and Capacities – January 2023.

| Postcode / Type | Premises | Licensed Hours | Capacities (On-sales numbers of people) (Off-sales Display Area sqm) | |
|----------------------------|--|--|--|---|
| | | | On-sales | Off-sales |
| KW15 1AG. Public House. | The Auld Motor Hoose. 26 Junction Road. Kirkwall. | On-consumption: Monday to Wednesday inclusive 11 am – 12 midnight. Thursday to Saturday inclusive 11 am – 1 am. Sunday 12.30 pm – 12 midnight. Off-consumption: Monday to Saturday inclusive 11 am – 10 pm. Sunday 12.30 pm – 10 pm. | 159. | 7.92. |

| Total | 671 | 824 | 483 | 547 | 781 | 104 |

All statistics are provisional and should be treated as management information. All data have been extracted from Police Scotland internal systems and are correct as at 6th March 2023.

¹ The Recorded Crimes are extracted using the Date Raised. Group 6 and 7 Crimes/Offences are displayed within Table 2 (with the alcohol specific Crimes/Offences highlighted).

² Please note, other crimes/offences may have involved alcohol (other than those highlighted).

³ Please note, each record would need to be read to confirm the circumstances, and if alcohol was related to the crime/offence.

Table 3.

Title: Domestic Incidents (With an Alcohol Marker), Orkney Council^{1,2,3,4}

Period: 1st January 2018 - 28th February 2023 (Calendar Years)

| | 2018 | 2019 | 2020 | 2021 | 2022 | 2023* |
|-------------------------------------|------|------|------|------|------|-------|
| Domestic Incidents (Alcohol Marker) | 24 | 39 | 28 | 19 | 13 | 2 |

All statistics are provisional and should be treated as management information. All data have been extracted from Police Scotland internal systems and are correct as at 7th March 2023.

1. The data was extracted using the incident's raised date and extracted from iVPD by selecting Domestic Incidents. Incident Nominals with an 'Alcohol Consumption' marker recorded within the 'At Risk' table were identified. Incidents with a 'Alcohol Involved' incident marker were also selected. The Domestic Incidents with an 'Alcohol Consumption' or 'Alcohol Involved' marker from either of the 2 identified tables (At Risk, Incident Marker) were then selected and displayed within Table 3.

2. Please note, more than one marker can be selected from the 'At Risk' table; and more than one marker can be selected from the 'Incident Marker' table. Table 3 is a count of unique domestic incidents, not markers.

3. Please note, each record will need to be read to confirm if alcohol was involved at the time of the domestic incident.

4. Please note, the markers are not always populated.

Police Scotland does not retain any information for statistical purposes once a record has been weeded from iVPD. When a record is weeded, it is removed from the system, and there is no retention of data outside the weeding and retention policy. Please note, the weeding and retention policy states that if a person is recorded as "no concern / not applicable" then this will only be retained for 6 months.

Please note that these data are collated from the Police Scotland iVPD system, which has an automated weeding and retention policy built on to it. A copy of the retention policy is available on the Police Scotland internet site (<https://www.scotland.police.uk/access-to-information/freedom-of-information/disclosure-log/2021/june/21-1479-sop-records-retention/>).

Subject: RE: Orkney Islands Area Licensing Board – Public Consultation - Licensing (Scotland) Act 2005 – Overprovision Assessment
Date: 14 March 2023 10:30:29
Attachments: [Alcohol and orkney - updated March 23.docx](#)

Dear Elaine,

Thank you for your email dated 20/01/23. I have attached the paper again with the most up to date information available currently.

The core data requested can be visualised in the table below:

| Data | Orkney | Scotland | Measure | Source |
|---|--------------------|--------------|---|--|
| alcohol related hospital admissions | 653.4 | 610.9 | Age-sex standardised rate per 100,000 (2020/21) | ScotPHO ScotPHO profiles (shinyapps.io) |
| alcohol specific deaths | 17.4 | 21.1 | Age-sex standardised rate per 100,000 (2017/2021) | ScotPHO ScotPHO profiles (shinyapps.io) |
| chronic liver disease deaths | 6.94 | 16.72 | European Age-Sex Standardised Rates per 100,000 (2020) | Mortality - ScotPHO |
| general acute hospital stays due to alcoholic liver disease | 149.4 | 120.7 | European Age-Sex Standardised Rates per 100,000 (2020/21) | Dashboard - Alcohol related hospital statistics - Scotland financial year 2021 to 2022 - Alcohol related hospital statistics - Publications - Public Health Scotland |
| hospital stays due to alcohol related brain damage | Scotland only data | 17.9 | European Age-Sex Standardised Rates per 100,000 (2020/21) | Dashboard - Alcohol related hospital statistics - Scotland financial year 2021 to 2022 - Alcohol related hospital statistics - Publications - Public Health Scotland |
| Individuals problem drinking | 16.4 | 17.6 | Percentage (2014-2017) | ScotPHO ScotPHO profiles (shinyapps.io) |
| alcohol related A&E attendances | Not publicly | Not publicly | Not publicly available | Not publicly available |

| | | | | |
|--|-----------|-----------|---|--|
| | available | available | | |
| alcohol brief interventions (ABIs delivered) | 175.5 | 123.8 | Number of ABIs delivered in accordance with the HEAT standard guidance and as a % of the target (2019/20) | ScotPHO profiles (shinyapps.io) |

Thank you for giving NHS Orkney the opportunity to comment on local licensing policy and overprovision in particular. The committee will know that the evidence is that within a community higher density of alcohol outlets, including off-sales outlets does correlate with increased harm due to alcohol consumption. However, whilst harm is linked to overall alcohol consumption relating harm to particular licenses is very problematic - especially in small communities with small numbers of alcohol related health events.

Men in Scotland on average drink more than the recommended 'safe' levels recommended to reduce alcohol related health harms. Orkney statistics are generally in line with national data, with more men reported as drinking potentially harmful amounts of alcohol than women. Whilst Orkney's figures for mean consumption may be a little less than the Scottish average, it should be noted that the Scottish average on many alcohol indicators is not a suitable aspiration as higher risk alcohol use is acknowledged by the Scottish Government as a significant issue in Scotland ([Alcohol and drugs - gov.scot \(www.gov.scot\)](https://www.gov.scot/Topics/health-drugs/alcohol)).

-
In Orkney we have more licences per head of population than the Scottish average. From an NHS perspective while we have levels of admissions and health related harms attributable to alcohol consumption as above, from health data it is not possible to relate these to particular licensees or concentrations of premises serving alcohol.

In summary, in reflection of the above and attached information, we would recommend continued restraint in awarding new or extended licenses.

Thanks
Hannah

To: Hannah Casey (NHS Orkney)
Cc: Licensing <Licensing@orkney.gov.uk>
Subject: Orkney Islands Area Licensing Board – Public Consultation - Licensing (Scotland) Act 2005 – Overprovision Assessment

Classification: NOT PROTECTIVELY MARKED

Dear Hannah

**Licensing (Scotland) Act 2005
Overprovision Assessment – Consultation**

Orkney Islands Area Licensing Board will be carrying out a review of its Statement of Alcohol Licensing Policy in terms of the Licensing (Scotland) Act 2005 during 2023.

As part of that process, the Board is first consulting on whether there is overprovision of licensed premises, or licensed premises of any particular description, in particular localities within its area.

The locality can be the whole Board area.

Details of the consultation are published at <https://www.orkney.gov.uk/News?postid=7067>.

Paper copies of the consultation can be provided on request to this office.

Responses must be received in writing by 17 March 2023. All responses must identify the name and address of the responder.

Responses by email (preferred) must be sent to licensing@orkney.gov.uk.

Responses by letter must be sent to The Clerk to the Licensing Board, Council Offices, Kirkwall, Orkney KW15 1NY.

Thank you for taking the time to take part in this consultation and please do not hesitate to contact the Licensing Service should you have further queries via the email address shown above or phone 01856 873535 extensions 2232 or 2229 (voicemail available).

Previous Data Collection Request

I refer to our previous emails between 29 September and receipt of your submission on 11 November 2022.

Your submission was noted by the Board at their meeting on 19 January 2023.

The Board commented that data within your submission was dated a number of years ago and that they would like more up to date information to help them with the review of Policy.

The Board has requested that you provide any further information which you consider may be relevant. This may include information on the following matters at a local level:

- alcohol related hospital admissions;
- alcohol related deaths;
- chronic liver disease deaths and hospital admissions;
- alcohol related brain damage;
- proportion of individuals who are alcohol dependent;
- alcohol related A&E attendances;
- alcohol brief interventions.

Regards

Elaine Sinclair

Alcohol and Orkney – Public Health Data Briefing Paper

07/10/22 – Updated 13/03/23

Purpose

The purpose of this briefing paper is to identify the current Public Health local area data relating to alcohol.

Background

The Orkney Islands Area Licensing Board indicated through an email received on the 29th of September 2022 of their intention to carry out a review of its Statement of Alcohol Licensing Policy under the Licensing (Scotland) Act 2005. The first step in the review process is for the Licensing Board to request data to identify localities where there may be overprovision of licensed premises, or premises of a particular description, within its area which could be determined as the whole of the Orkney. The Board's assessment in 2018 determined that the locality should be considered as Orkney as a whole.

The Orkney Licensing Board works under the following licensing objectives:

- preventing crime and disorder;
- securing public safety;
- preventing public nuisance;
- protecting and improving public health;
- protecting children and young persons from harm.

The Licensing Board determined in 2018 that there was no overprovision of licensed premises or licensed premises of a particular description within the locality of Orkney. This was due to the Licensing Board concluding that there was not a dependable causal link between the evidence provided to the Board and the operation of licensed premises to suggest that a saturation point had been reached or was close to being reached.

The Licensing Board has requested for the provision of data to support the review and further requested an update to that data in January 2023.

Summary of Data

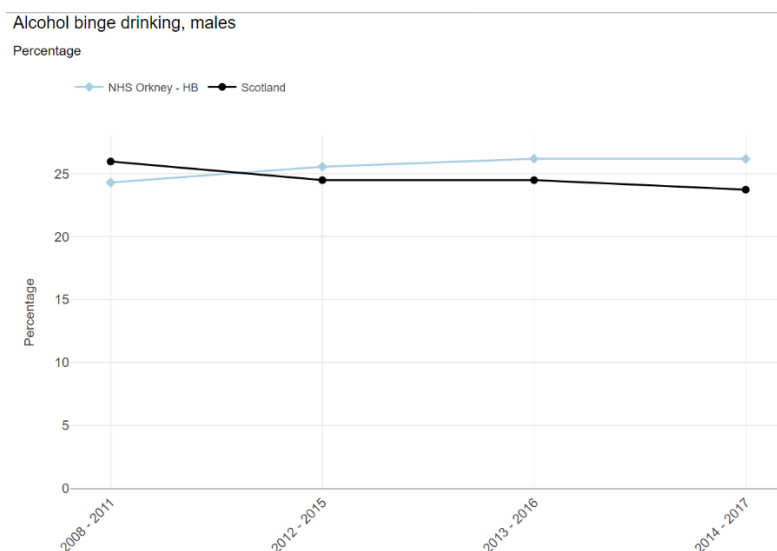

Within Orkney, the percentage of people, from the Scottish Household Survey, who consumed hazardous/harmful levels of alcohol were not significantly different from the national average during 2017-2021. In 2016, the UK Chief Medical Officers published low risk drinking guidelines recommending a maximum of 14 units of alcohol per week for both women and men to keep health risks low. Whilst the mean weekly units for females in Orkney was below this threshold at 7.4 (compared to 8.6 national average), the mean weekly units for males in Orkney was above

Alcohol and Orkney – Public health data briefing paper, 07/10/22; updated 13/03/23

Hannah Casey – Public Health Manager NHS Orkney

recommended safe drinking guidelines at 14.8 (compared to a 15.7 national average). The level of binge drinking in males within Orkney from 2014-2017, whilst not statistically worse than the Scottish average for health board areas, ranks Orkney the fourth highest levels of alcohol binge drinking in Scotland. Comparison to the national average over time suggests that Orkney’s binge drinking behaviours have been higher than the national average from 2012-2017 (see figure 1). The level of binge drinking for females within Orkney from 2014-2017 is less than the national average but also lacks reaching statistical significance level. 2014/2017 is the latest time period available for this data from the Scottish Public Health Observatory Profile Tool. As the data for Orkney males has remained higher than the national average for a number of years and the mean consumption remains higher than the recommended 14 units, it is likely that this trend may continue.

Figure 1: Alcohol Binge Drinking, Males. Orkney Health board compared to Scotland.

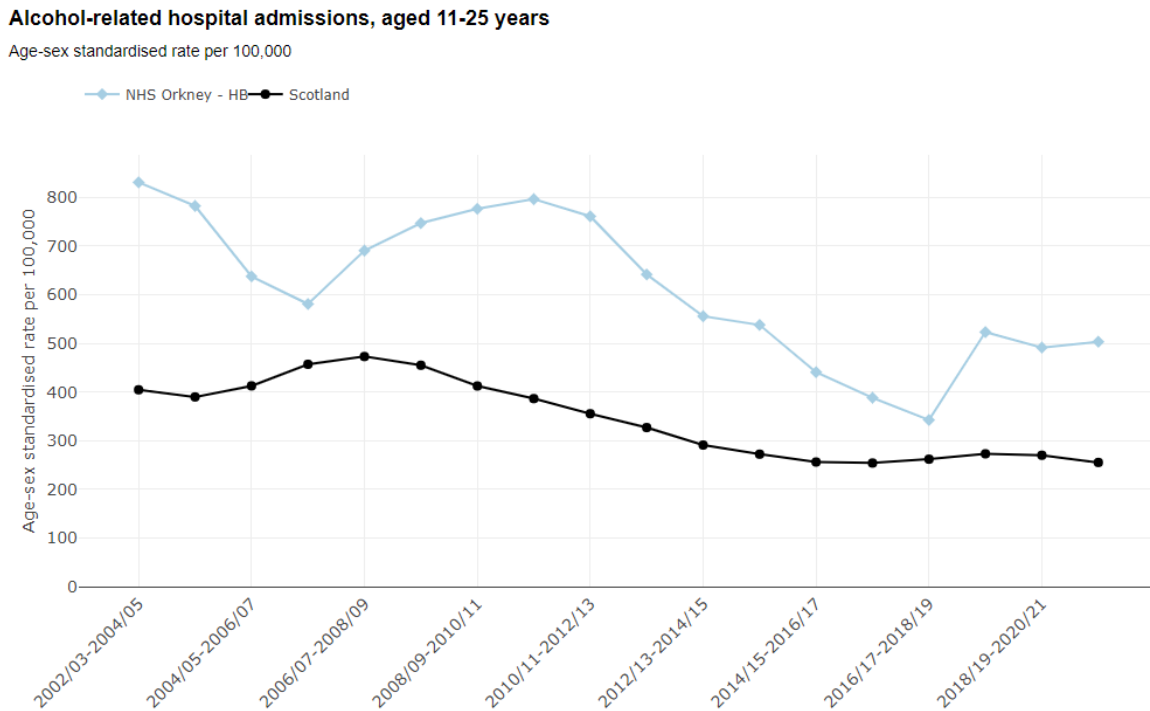

Source : ScotPHO [ScotPHO profiles \(shinyapps.io\)](https://shinyapps.io/scotpho/)

Increased levels of binge drinking could cause health harms through alcohol consumption. In 2020/21, within the acute general setting Orkney experienced higher levels of hospital stays and numbers of patients, including new patients, due to alcohol dependence than the national average. For alcoholic liver disease, Orkney experienced higher levels of hospital stays and numbers of patients when compared to the national average for the same time period. Both of these statistics used the European age-sex standardised rates (PHS, 2023). It should be noted that these statistics are variable over time. The data is likely to be impacted by the small population of Orkney and the fluctuations make interpretation difficult.

Within the current Scottish Public Health Observatory (ScotPHO) alcohol related data, alcohol related hospital admissions and alcohol specific deaths are not

statistically different to the national comparator. However, alcohol-related admissions for those aged 11-25 years old were worse than the national comparator. Over time in Orkney, this measure seems to be consistently above the national average; although it is not always statistically significant (see figure 2).

Figure 2: Alcohol-related hospital admissions, aged 11-25. Orkney Health board compared to Scotland.

Source : ScotPHO [ScotPHO profiles \(shinyapps.io\)](https://shinyapps.io/scotpho/)

This could be suggestive of potential health harms amongst young people in Orkney relating to alcohol consumption.

A study conducted by Public Health Scotland into alcohol sales and harm in Scotland during the Covid-19 pandemic found that between the start of the Covid-19 restrictions in March 2020 and May 2021, there were 17 units of alcohol sold per adult each week (16 of which were from off-trade premises). The authors of this study highlight that this level of alcohol represents enough to put every adult in Scotland over the low-risk weekly drinking guidelines (Richardson, Giles and Fraser, 2022). Therefore, whilst there were changes in consumption of alcohol particularly relating to the premises from which the alcohol was purchased, which also impacted on type of alcohol sales, the level of alcohol consumption across Scotland remains a health concern.

Conclusion

Orkney's small population can cause fluctuations in data making interpretation difficult. However, within Orkney and Scotland as a whole, there is data to suggest that there is a significant level of drinking above the low-risk weekly drinking limits recommended through the Chief Medical Officers, due to the associated health harms. It is not clear whether this has impacted on levels of alcohol dependence and alcoholic liver disease in Orkney. However, the levels of alcohol related hospital admissions in young people may be an indicator for concern.

FOI-017940-2023

Period: Fiscal Years 2018/19 to 2022/23 Year to date

All Fires in Orkney by Incident Type

| Incident Type | Fiscal Yr | | | | | Total |
|---------------------|-----------|-----------|-----------|-----------|-----------|------------|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | |
| Chimney Fire | 6 | 4 | 5 | 2 | 1 | 18 |
| Dwelling Fire | 7 | 11 | 4 | 10 | 17 | 49 |
| Other Building Fire | 5 | 6 | 2 | 3 | 7 | 23 |
| Other Outdoor Fire | 17 | 5 | 11 | 16 | 7 | 56 |
| Other Primary Fire | 1 | 6 | 4 | 2 | 3 | 16 |
| Refuse Fire | 6 | 5 | 3 | 2 | 3 | 19 |
| Road Vehicle Fire | 11 | 11 | 7 | 8 | 9 | 46 |
| Total | 53 | 48 | 36 | 43 | 47 | 227 |

Suspected Under the Influence of Drink or Drugs

| Incident Type | Alcohol/ Drugs? | | | Total |
|---------------------|--------------------|------------|------------|------------|
| | Yes | No | Don't know | |
| Dwelling Fire | 3 | 42 | 4 | 49 |
| Other Building Fire | | 19 | 4 | 23 |
| Other Primary Fire | | 14 | 2 | 16 |
| Road Vehicle Fire | 1 | 43 | 2 | 46 |
| Total | 4 | 118 | 12 | 134 |

Please note, suspected under the influence of drink or drugs is only collected for primary fires, which includes the following incident types: Dwelling Fires, Other Building Fires, Other Primary Fires and Road Vehicle Fires.

All fires in Orkney

Appendix 6

Overprovision of licensed premises or licensed premises of a particular description.

Under Section 7 of the Act, the Board is required to produce a statement as to the extent that the Board considers there to be overprovision of licensed premises or licensed premises of a particular description in any locality with the Board's area.

On 19 January 2023, the Board determined that, for the purposes of consultation on the assessment of overprovision of alcohol licensed premises, the locality should be Orkney as a whole.

On 27 April 2023, the Orkney Islands Area Licensing Board determined that there is no overprovision of licensed premises or licensed premises of a particular description within the locality of Orkney defined by the Board.

The Board concluded that, on a balance of probabilities, there was not a dependable causal link between the availability of alcohol in Orkney and alcohol-related harm, in that, based on the evidence of harm in the locality of Orkney as defined by the Board, it was not more likely than not that alcohol availability was a cause of harm in Orkney, or that increasing the availability of alcohol in Orkney would increase that harm.
