## 8 Individual score criteria

Assessment criteria	Excellent (4)	Good (3)	Fair (2)	Poor (1)	Not Fit for purpose (0)	N/A
<b>Accessible and Well Connected</b>						
Well located, close to community	Located within 300m buffer zone and good public transport.	Located within 300m buffer zone and bus stop located outside site.	Located just outside 300m buffer zone and has reasonable access to public transport.	Outside the 300m buffer zone and nearest bus stop some distance away from the site (more than 5mins walk).	Outside the 300m buffer zone by a considerable distance and no bus stops within reasonable walking distance.	Connection to community not relevant.
Disabled access	Disabled parking bays in close proximity to entrance. Entrance points accessible to all. Surface conditions are good. Good wheelchair access throughout, well distributed resting points (seats), information boards accessible to all. Site accessibility clear (onsite and before visiting).	Complete wheelchair access, but only some resting points. Most of the entrance points accessible to all.	Some access points accessible to all. Limited disabled parking bays. Some wheelchair access, some resting points. Some information regarding site accessibility (onsite and before visiting). Some surface issues.	Limited wheelchair access/ inadequate resting points, some issues of poor surfaces.	No disabled parking bays. No wheelchair access, no resting points. Required to use poor surfaces – wet/muddy/uneven ground. No accessibility information onsite or before visiting.	Disabled access not appropriate or achievable on a site of this character/ location/ type.
Quality Paths, fit for purpose	Suitable materials, level for safe use, edges well defined, surfaces clean and debris and weed free – no desire lines.	Path/s generally very good but some minor maintenance needed.	Suitable materials but with some faults – cracking/ overgrown/vegetation overhanging.	Path/s in correct place, but in need of obvious repair – uneven/cracking/ overgrown/vegetation overhanging.	Paths inappropriate/ only desire lines (evidence of people creating their own route, regardless of where the footpath goes).	No paths expected on a site of this type or size (e.g. water body, dense woodland, small amenity area).
Accessible entrances in the right places	Entry point/s well placed and accessible/ in good condition.	Entry point/s in good location and accessible/ in good condition.	Entry point/s satisfactory	Entry point/s in poor location/ poor condition	Inappropriate location/ not accessible/ Poor condition.	Space is open, no need for controlled entrance points
Connected to path network/ core path	Clearly defined paths to and through the site, crossing points across roads to reach site.	Paths provided to and within the site, some crossing of roads required but no safety issues.	Some paths to and/or within the site, Improvement to road crossings required.	Paths provided to and/or within the site, some safety issues regarding access to pedestrians.	No clear paths provided to and/or within the site, significant safety issues regarding access to pedestrians.	Connectivity not available or appropriate on a site of this type/ character/ location.
Good signage	Information available for locals and visitors in some detail (info. Boards, signage, leaflets, way marked routes, contact details etc.)	Some information available.	Limited information available	Limited information available, information board damaged.	No information found & required.	No information needed.

Assessment criteria	Excellent (4)	Good (3)	Fair (2)	Poor (1)	Not Fit for purpose (0)	N/A
<b>Attractive and Appealing</b>						
Attractive with positive image	No noise and very peaceful. No vandalism/ graffiti and no litter.	Limited noise, but site located away from roads. Very limited evidence of vandalism/graffiti and litter.	Some intrusion by noise (e.g. busy road) but wouldn't deter users. Some vandalism/ graffiti and litter but doesn't detract from overall appearance of the site.	Regular noise intrusion that might deter users. Clearly evidence of vandalism/graffiti and litter, may deter some from visiting.	Noisy site from a range of sources, persistent and impacts on the usability of the site. Much vandalism/ graffiti and litter, seriously deterring the usage of the site.	Attractiveness not an issue by reason of site/ character or use.
Quality materials used	Excellent quality materials used and maintained to a high standard.	Good quality materials used and maintained to a good standard.	Suitable materials used, small maintenance issues.	Sub par quality materials used, maintenance improvements needed.	Poor quality/choice of materials used, no maintenance and is needed.	Not relevant.
Quality furniture	Numerous litter and dog bins in good condition. Seating in good locations and in good condition, more the adequate provision of cycle stands also in good condition.	Numerous litter and dog bins in average condition. Seating in average condition, adequate provision of cycle stands, in good condition.	Adequate number of litter and dog bins in average condition. Adequate amount of seating in average condition, adequate provision of cycle stands in average or poor condition.	Insufficient number litter and dog bins in average/ good condition or appropriate number in poor condition. Insufficient amount of seating/ poor condition/poor location. Inadequate provision of cycle stands in poor condition.	No litter/dog bins, seating or cycle stands and they are required.	None required
Quality Equipment	Equipment/ surface in excellent condition and accessible to all users. Entrance points are safe – slow self closing gates.	Equipment/surface in good condition	Equipment/surface in reasonable condition, potential improvements needed in the future	Some equipment/ surface in need of repair, improvements can be made. Entrance gates need repair.	Most equipment/ surface in need of repair/hazardous – or there is no equipment and the site would benefit from it.	None required/ inappropriate for site.
Provide built facilities in clean, safe and usable condition	On-site (or well signed off-site) toilets/changing facilities, clubhouse or maintenance shed with easy access (incl. disabled) signed and well maintained.	On-site or off-site toilets/ changing facilities, clubhouse or maintenance shed with easy access (incl. disabled) and well maintained but difficult to find/ not well signed.	On or near off-site toilets/ changing facilities, clubhouse or maintenance shed in average condition.	On or near off-site toilets/ changing facilities, clubhouse or maintenance shed in poor condition, no disabled access.	None and required.	Condition of facilities not relevant to the site.

Assessment criteria	Excellent (4)	Good (3)	Fair (2)	Poor (1)	Not Fit for purpose (0)	N/A
Contains attractive plants and landscape elements	Planting is varied and appealing (native or exotic) and contributes to the overall quality of the space.	Planting is appealing or varied and gives quality to the space.	Some variety of planting and landscape elements that contributes to quality but could be improved.	Planting quite poor quality contributing very little to the space.	Planting poor quality or inappropriate contributing nothing to the space.	Plant and landscape elements not relevant to function and/or type of space.
Well maintained (natural features)	Planting very well maintained, no weeds/ grass cleanly cut.	Planting well maintained, very few weeds/ grass cleanly cut frequently, very few weeds.	Planting maintained to a good standard/ grass cut well (no tearing), some weeds.	Planting over grown, numerous weeds/ grass cut infrequently, clippings obvious/cut is poor quality, numerous weeds.	Inappropriate maintenance/ clippings obvious/ poor quality cut. Many weeds.	Maintenance not relevant to the site by reason of scale and/ or other management activity.
<b>Bio diverse</b>						
Contribute positively to biodiversity (habitats and species)	Vegetation actively managed for informal/ formal amenity and biodiversity/ excellent example of a natural/ semi-natural space.	Vegetation actively managed for informal amenity and biodiversity/ good example of natural/ semi-natural space.	Vegetation mainly for informal amenity or natural/ semi-natural area in adequate condition.	Vegetation mainly for informal amenity or natural/ semi-natural area needs some maintenance.	Opportunity to support biodiversity not taken or natural/ semi-natural area in needs major maintenance.	Biodiversity not relevant by nature of space and function.
Contribute positively to landscape setting	Very good balance between natural, amenity and recreational elements.	Good balance between natural, amenity and recreational elements.	Adequate relationship	An imbalance between uses	An imbalance between the uses, need to introduce additional elements.	Landscape setting not relevant.
Connect with wider green networks	Integrated into the wider green networks very well.	Integrated into the wider green networks well.	Connected in parts to the wider green network but could be improved.	In close proximity to wider green network but not actually integrated.	No connection and is required.	Not relevant.
<b>Promote Activity</b>						
Provide diverse play, sport and recreational facilities	Very good balance of activities for various user groups	Good balance of activities for various user groups.	Fair amount of activities but more could be provided.	Limited activities in space.	No activities and space would benefit from them.	Play and sports facilities not relevant to the type of space and/ or location.

Assessment criteria	Excellent (4)	Good (3)	Fair (2)	Poor (1)	Not Fit for purpose (0)	N/A
Provide places for social interaction	Plenty of opportunity for social interaction.	Good opportunity for social interaction.	Some social interaction.	Activities/layout of space prevents much social interaction.	No social interaction at all.	Not relevant.
Contains high quality appropriate and carefully sited facilities to meet user needs	Very good facilities sited appropriately for all users.	Good facilities sited appropriately for most users.	Facilities require some maintenance/ Not sited in the best possible place.	Poorly maintained/sited facilities or not appropriate for the site.	None and required.	Appropriateness of facilities and need is not relevant.
<b>Community Benefits</b>						
Safe and welcoming	No areas of poor visibility or entrapment points.	Some areas of poor visibility, but no entrapment points.	Some areas of poor visibility and entrapment points.	Lots of areas of poor visibility and entrapment points.	Lots of remote areas of poor visibility and remote entrapment points with no escape options.	Issue of safety and sense of welcome not relevant.
Appropriate lighting levels	Appropriate lighting throughout site with no obvious management or user issues.	Appropriate lighting throughout site, only minor issues.	Appropriate lighting at entrances and where appropriate main routes with only minor lighting issues.	Lighting poor, restricting use.	None and is required.	None required, could interfere with wildlife habitats/ create unwanted light pollution.
Provides good routes to wider community facilities	Well connected to pedestrian and cycle routes/ public transport.	Good connection to pedestrian and cycle routes/ public transport.	Not connected to designated pedestrian/ cycle routes but quiet roads. Public transport short walk away.	Limited connection to wider community	No connection to wider community, roads very busy.	Issues of community connectivity not relevant to this site.
Sense of local identity and place	Clear sense of local identity and place on-site.	Good sense of local identity and place on-site and through views to surrounding area.	A small sense of local identity and place through views to surrounding area.	Poor sense of identity and place.	No sense of identity and place, could be anywhere in the UK.	Local identity and sense of place not relevant.
Opportunities for community involvement in management.	Active community involvement, significant reduction in maintenance costs.	Active community involvement, some reduction in maintenance costs.	Some community involvement.	Limited community involvement.	No community involvement, high maintenance costs.	Issues of community engagement not relevant.

## 9 PAN 65 typology

This typology is based on the research set out in Rethinking Open Space prepared by the Scottish Government Central Research Unit and promoted in PAN 65. The typology adopted by Orkney Islands Council has been adapted to fit the Orkney context. These provide the basis for the more detailed secondary codes used in the secondary code maps.

Type	Description (Function)
<b>Public parks and gardens</b>	Areas of land normally enclosed, designed, constructed, managed and maintained as a public park or garden. These may be owned or managed by a community group but more typically by the local authority.
<b>Private gardens or grounds</b>	Areas of land normally enclosed and associated with a house or institution and reserved for private use. This includes school grounds.
<b>Amenity greenspace</b>	Landscaped areas providing visual amenity or separating different buildings or land uses for environmental, visual or safety reasons and used for a variety of informal or social activities such as sunbathing, picnics or kickabouts. These areas are often associated with either residential, business or transport related land uses.
<b>Playspace for children and teenagers</b>	Areas providing safe and accessible opportunities for children's play usually linked to housing areas.
<b>Sports areas</b>	Large and generally flat areas of grassland or specially designed surfaces, used primarily for designated sports (including playing fields, golf courses, tennis courts and bowling greens) and which are generally bookable.
<b>Green corridors</b>	Routes including riparian corridors, interconnected green spaces and access routes, linking different areas within a town or village as part of network used for walking, cycling or horse riding, or linking towns and villages to their surrounding countryside. These corridors may incorporate Core Paths.
<b>Natural/ semi-natural greenspace</b>	Areas of undeveloped or previously developed land with residual natural habitats or which have been planted or colonised by vegetation and wildlife, including woodland and wetland areas.
<b>Other functional greenspace</b>	Allotments and community growing spaces for growing fruit, vegetables and other plants, either in individual allotments or as a community activity. Also includes churchyards, cemeteries, campsites and caravan parks.
<b>Civic space</b>	Squares, streets and waterfront promenades with a civic function, predominantly of hard landscaping that provide a focus for pedestrian activity and can make connections for people.

## 10 Secondary codes

1. Roads	1.1 Roads and Tracks	
	1.2 Roadside (Manmade Vegetated Verge)	
	1.3 Roadside (Natural)	
	1.4 Parking/Hard Standing	
	1.5 Roadside (Unclassified)	
	1.6 Roadside (Paved)	
2. Water	2.1 Inland Water	
	2.2 Tidal Water	
	2.3 Foreshore/Rocks	
3. Rail Track		
4. Paths		
5. Buildings	5.1 Residential	
	5.2 Commercial/Institutional	
	5.3 Glasshouses	
	5.4 Other Structures	5.41 Historic
	5.5 Airports	
	5.6 Harbours/Piers	
6. Pan 65 Typology	6.1 Public Parks and Gardens	
	6.2 Private Gardens or Grounds	6.21 Private Gardens
		6.22 Schools
		6.23 Institutions
		6.24 Commercial
	6.3 Amenity Greenspace	6.31 Residential
		6.32 Business
		6.33 Transport

	6.4 Playspace for Children and Teenagers	
	6.5 Sports Areas	6.51 Playing Field
		6.52 Golf Course
		6.53 Tennis Court
		6.54 Bowling Green
		6.55 Other Sports
	6.6 Green Corridors	6.61 Green Access Routes
		6.62 Riparian Routes
		6.63 Core Path
	6.7 Natural/Semi-Natural Greenspace	6.71 Woodland
		6.72 Open Semi-natural
		6.73 Open Space
		6.74 Cliffs
	6.8 Other Functional Greenspace	6.81 Allotments
		6.82 Churchyard
		6.83 Cemetery
		6.84 Other functional greenspace
		6.85 Camp Site/Caravan Park
	6.9 Civic Space	
	6.10 Other Open Space	6.101 Other Open Space Private
7. Other Open Land	7.1 Farmland	
	7.2 Moorland	7.21 Scrub
	7.3 Extraction (Mining/Quarrying)	
	7.4 Utility (Landfill/Water Treatment)
