Introduction by the Area Commander

Chief Inspector Scott Robertson

I present to you the Orkney Police and Fire Sub-Committee Scrutiny Report, covering the reporting period 01 April 2024 to 30 September 2024. I hope the style of the report is continuing to provide you with the required breakdown of crime statistics for Orkney Area Command.

The Orkney islands, characterised by its rural landscape and dispersed population, presents unique challenges for policing. Despite these challenges, your local policing team has worked diligently to maintain public safety, reduce crime, and increase community engagement.

This report provides you with a picture of the demand and activity which has been ongoing in Orkney over the last fiscal year. Despite a small increase in overall crime, detection rates have remained steady. The team has achieved an 86.3% detection rate for all crimes, demonstrating their commitment to solving crimes and bringing offenders to justice.

One of the main focuses for this time period has been Road Safety. Road crime numbers have generally increased, which can be attributed to proactive policing initiatives. We maintain a strong presence on the roads, collaborating with partners through initiatives like Operation CEDAR to promote safe driving practices via both education and enforcement to reduce serious traffic incidents. There have been no RTC Fatalities on our roads during this time period.

While Orkney has seen positive outcomes, challenges remain, including Rural Crime and anti-social behaviour. Isolated incidents of anti-social behaviour continue to be a concern to our communities. To address these challenges, future priorities will include taking a robust approach to anti-social behaviour, including working with partners to address underlying issues and Strengthening relationships with the community and responding to their concerns.

A significant focus during this period has been on tackling drug-related offences. Proactive operations and increased intelligence-led policing have led to a 7.7% increase in the detection of Supply of drug offences. This proactive approach has disrupted drug supply chains and reduced drug-related harm within the community.

Building strong relationships with the community is essential for effective policing. The team has actively engaged with local residents, businesses, and community groups through various initiatives. Strong partnerships have been forged with other agencies and voluntary organisations. These relationships assist in tackling local issues and improve community safety.

The report outlines an increase on the previous year in relation to Hate Crime related offences. There has been a national increase in Hate Crime related offences following the introduction of the Hate Crime and Public Order Act in April 2024. We continue to support victims of crime to engage with us and feel confident in reporting crimes to us.

The Orkney Islands continue to be a safe and resilient place for residents and visitors alike. The team's dedication to proactive policing, community engagement, and partnership working has been instrumental in achieving these results. By addressing emerging challenges and maintaining a focus on public safety, the team will continue to make a positive impact on the community.

The Local Policing Priorities for the N Division area are decided by data from our Strategic Assessment which details Threats and Risks, and also feedback from Local Authorities, Partners and residents in the Your Police survey.
