**Policy and Resources Committee: 16 February 2021.**

**Joint Inspection of Children and Young People in Need of Care and Protection.**

**Progress Update.**

**Joint Report by Chief Executive and Chief Officer / Executive Director, Orkney Health and Care.**

### **1. Purpose of Report**

To advise of progress on the Joint Inspection of Services for Children and Young People in Need of Care and Protection Improvement Plan.

### **2. Recommendations**

The Committee is invited to scrutinise:

#### **2.1.**

Progress to date in respect of the Improvement Plan arising from the Joint Inspection of Services for Children and Young People in Need of Care and Protection, attached as Appendix 1 to this report, in order to obtain assurance.

### **3. Background**

#### **3.1.**

Between 26 August and 4 October 2019, the Orkney Community Planning Partnership was inspected on its services for children and young people in need of care and protection. The inspection was led by the Care Inspectorate and the report detailing its findings was published on 25 February 2020.

#### **3.2.**

An action plan was developed to address the Improvement Areas outlined in the Care Inspectorate report, which is routinely updated and monitored. Progress has previously been reported to the Council on 11 June 2020 and to the Policy and Resources Committee on 3 December 2020.

## 4. Summary of Improvement Actions

- Following a recent Foster Care recruitment drive there were 4 applications from suitable individuals and couples who progressed through the initial assessment stage. The two remaining families are being offered training and a full fostering assessment.

#### **4.2.**

Two new Improvement Areas have been added to the plan and are being scoped:

- Development of the Orkney Childcare and Young People's Partnership (OCYPP) website (IMP045).
- Improvements to NHS Orkney community based Information Management System (IMP046).

#### **4.3.**

There are gaps in the provision of direct therapeutic support for young people and there is no specialist infant mental health provision to assist in assessing complex parent infant relationship issues in permanence and adoption work.

### **5. Corporate Governance**

This report relates to governance and procedural issues and therefore does not directly support and contribute to improved outcomes for communities as outlined in the Council Plan and the Local Outcomes Improvement Plan.

## **6. Financial Implications**

### **6.1.**

There are no immediate financial implications arising from the report recommendations.

### **6.2.**

There are however significant financial implications associated with delivery of services to ensure appropriate and effective services for children and young people in need of care and protection. The improvement planning actions and outcomes required, as a result of the inspection will involve identifying additional resources, inclusive of human, capital and revenue.

### **6.3.**

There are common themes running through the progress report of gaps in service provision and underinvestment in infrastructure, staffing and training. Rectifying these shortcomings to ensure delivery of appropriate and effective services for children and young people in need of care and protection will require a significant investment of resources. In the context of a services with a significant savings target to achieve this will be challenging.

## **7. Legal Aspects**

There are no immediate legal implications arising from the recommendations contained in this report.
