Comments

- At least 90% of the items swept or picked up were located in the short section of streets between The St Ola and Skippers/Torvhaug Inn.
- Broken bottles and glasses represent approximately 20% of the items picked or swept up.
- The majority of glasses recovered were for shorts and generally shattered into small fragments.
- Broken bottles pose the greatest threat to health particularly the jagged edges of the bases.

In the last 2 years, we have noticed a significant increase in the number of incidents where we have intervened to calm things down before fights start. Last year we had to bring 10 incidents to the attention of the Police which again is nearly double that of previous years.

Otherwise our activities in the last 12 months have been very similar to those of previous years.
