

SCOTTISH GOVERNMENT FEEDBACK TO ORKNEY ADP

ADP ANNUAL REPORT 2016-17

1. FINANCIAL FRAMEWORK

Financial Framework: SG Earmarked Allocations	Thank you for providing detailed information throughout this section in your Annual Report. The third table “2016-17 <i>End Year Balance for Scottish Government Earmarked Allocations</i> ” you have provided the summary for the total ADP Income and Expenditure. We would be grateful if you can amend.
--	---

2. MINISTERIAL PRIORITIES

PRIORITY	FEEDBACK
Preparing Local Systems to Comply with the new Drug & Alcohol Information System (DAISy)	Thank you for your feedback and for completing the recent DAISy implementation checklist. It is encouraging that the ADP is working collaboratively with services and has an implementation plan in place to co-ordinate the work for the go live date in April 2018. Further support to assist the ADP with its implementation plan is available from the DAISy project board and via the DAISy implementation meetings.
Tackling drug related deaths (DRD)/risks in your local ADP area. Which includes - Increasing the reach and coverage of the national naloxone programme for people at risk of opiate overdose, including those on release from prison.	Thank you for the useful summary, which clearly demonstrates the work being taken forward by your ADP. We recognise the low numbers of Naloxone kits required in your area, your ADPs commitment to the programme is commendable. You have listed a number of appropriate activities which are in place to tackle drug related deaths. The ADP Co-ordinator sitting on the local choose life suicide prevention group to improve local understanding of deaths from 2017 will strengthen that.

PRIORITY	FEEDBACK
ADP Engagement in improvements to reduce alcohol related deaths.	Your work to date on a whole population approach and reducing alcohol related deaths is acknowledged along with your ADPs recognition of this work being a priority. You highlight that your ADP is going to identify local trends in alcohol related deaths, you may find it helpful to case review those who have died from an alcohol related death to identify opportunities to intervene earlier.
Ensuring a proactive and planned approach to responding to the needs of prisoners affected by problem drug and alcohol use and their associated through care arrangements, including women	Evidence of pro-active and planned working with Criminal Justice colleagues, the new Community Justice Partnership being in place will be helpful in meeting the needs of this population especially given the ADP Co-ordinator is a member. This will support your work in locating prisoners and appropriate provision of throughcare services.

3. ADDITIONAL INFORMATION

What is the formal arrangement within your ADP for working with local partners to report on the delivery of local outcomes?	Your governance/accountability route is well defined, and it's helpful to see your ADP has moved under the management of your IJB. You have advised your IJB Chief Officer remains a board member of the CPP as well as a member of ADP which provides a direct link and connections.
Is there an ADP Workforce Development Strategy in Place, if <u>not</u> , are there plans to develop? What additional supports have you leveraged to facilitate this and are you working with our NCOs?	Positive to see development of the initial stages of a workforce development strategy supported by Scottish Drugs Forum.
