Introduction by the Area Commander

Chief Inspector Scott Robertson

I present to you the Orkney Police and Fire Sub-Committee Scrutiny Report, covering the reporting period 01 April 2022 to 31 December 2022. I hope the style of the new report is continuing to provide you with the required breakdown of crime statistics for Orkney Area Command.

The interpretation of statistics continues to be a key part of what we do, identifying potential crime trends and ensuring I have the right officers in the right place to keep our communities safe. We do compare data on previous years, however it may be some years before we can accurately compare year on year data as a result of the COVID-19 pandemic. I am always happy to discuss the data and provide some context around the statistics provided within the report.

We continue to face some real cost of living challenges which will impact all of our communities, including those who have not felt such hardship before. My team are continuing to work with partners to protect the vulnerable people within our communities.

We continue to have a presence on Orkney roads, enforcing road traffic legislation, improving road safety and investigating road traffic collisions.

I am committed to tackling the misuse of controlled substances throughout Orkney Area Command and

my officers will continue to proactively identify and target those offenders using and distributing these substances.

Fraud continues to increase with individuals falling victim to various methods of fraud. We have attempted to increase publicity around these and worked with financial institutions to reinforce messages around keeping money safe.

I am pleased to report that there has been no incidents of Hate Crime in the reporting period. We will continue to support victims of crime to engage with us and feel confident in reporting crimes to us.

Our work tackling serious and organised crime continues, we continue to disrupt these individuals and working effectively with partners is key. We use these relationships to identify individuals that are vulnerable to exploitation, ensuring early and effective interventions are progressed and making Orkney inhospitable to serious and organised crime groups.

Finally, the implementation of technology within Police Scotland I hope will continue, however with the recent budget announcement of cuts to the Police Service these may not progress as promptly as I would prefer.

Local Policing Priorities

The Local Policing Priorities for the N Division area are decided by data from our Strategic Assessment which details Threats and Risks, and also feedback from Local Authorities, Partners and residents in the Your Police survey.

No Knives, Better Lives - No Knives, Better Lives (NKBL) is a national capacity-building programme that supports primary prevention work related to knife carrying in Scotland. In 2009, the NKBL National Delivery Team at YouthLink Scotland and the Scottish Government began supporting partners in 11 selected Local Authority areas to implement NKBL. The approach to prevention is informed by the principles and values of youth work and a public health approach to violence prevention. The focus is not just on what it is we do not want young people to do and how to stop them doing it, but also what we want young people to be able to do, how we support them to understand and navigate risk and to make positive life choices.

Arrangements have been made for Police Scotland's Prevention and Interventions Officers to support this initiative in Orkney.
