Education, Leisure and Housing Committee: 12 September 2018.

Northern Alliance - Regional Improvement Framework Plan.

Report by Executive Director of Education, Leisure and Housing.

1. Purpose of Report

To consider the Northern Alliance Regional Improvement Framework Plan in so far as it relates to the Council.

2. Recommendations

The Committee is invited to note:

2.1.

That the Northern Alliance, which is committed to improving the educational and life chances of children and young people, is a Regional Improvement Collaborative between eight local authorities across the North and West of Scotland.

2.2.

That the Regional Improvement Framework Plan, attached at Appendix 1 to this report, outlines how the Northern Alliance intends to reduce inequalities and target improvement in the four national priorities from the National Improvement Framework, namely:

- Improvement in attainment, particularly in literacy and numeracy.
- Closing the attainment gap between the most and least disadvantaged children and young people.
- Improvement in children and young people's health and wellbeing.
- Improvement in employability skills and sustained, positive school-leaver destinations for all young people.

2.3.

That, if approved by all the constituent authorities, the Northern Alliance Regional Improvement Framework Plan, will be submitted to Education Scotland in September 2018.

It is recommended:

2.4.

That the Northern Alliance Regional Improvement Framework Plan, attached as Appendix 1 to this report, be approved, in so far as it relates to the Council.

3. Background

3.1.

The Northern Alliance, which is committed to improving the educational and life chances of children and young people, is a Regional Improvement Collaborative between eight local authorities across the North and West of Scotland comprising:

- Orkney.
- Aberdeen City.
- Aberdeenshire.
- Argyll and Bute.
- Eilean Siar.
- Highland.
- Moray.
- Shetland.

3.2.

Each Regional Improvement Collaborative has been asked by a national joint steering group, consisting of the Scottish Government, Education Scotland and Convention of Scottish Local Authorities, to produce a Regional Improvement Plan. The Regional Improvement Plan is required to outline how the Regional Improvement Collaborative intends to reduce inequalities and target improvement in the four national priorities from the National Improvement Framework, namely:

- Improvement in attainment, particularly in literacy and numeracy.
- Closing the attainment gap between the most and least disadvantaged children and young people.
- Improvement in children and young people's health and wellbeing.
- Improvement in employability skills and sustained, positive school-leaver destinations for all young people.

3.3.

The development of the Regional Improvement Plan has been part of an ongoing process. The first draft of the Northern Alliance Regional Plan was submitted to Education Scotland for feedback in January 2018. Feedback was received from the Chief Inspector of Education/Chief Executive in February 2018. The Northern Alliance has sought to build on the comments received and incorporate these into the next phase of the Plan.

3.4.

In terms of next steps following feedback from Education Scotland, the Northern Alliance was advised to engage all stakeholders and seek their views on developing the plan. Consultations and engagement sessions took place from mid-April to mid-June 2018 with a range of stakeholders, including teaching staff, parents, children and young people, elected members and unions. Each local authority was responsible for undertaking consultation and engagement sessions in their respective areas.

3.5.

Officers in Education, Leisure and Housing have consulted with Elected Members, young people, Head Teachers, teaching staff, trade unions and parents with regard to the draft Regional Improvement Plan. This has mirrored similar consultations across all eight local authorities within the Northern Alliance between April and June 2018.

3.6.

Feedback from the Orkney Islands Council consultation exercise on the Regional Improvement Plan found that the majority of those consulted – teaching staff; parents/guardians and elected members - were supportive of the plan.

3.7.

Education Scotland approved the first draft of the Northern Alliance Regional Improvement Plan in January 2018 and the revised draft, reshaped as a result of the consultation process outlined above, will be resubmitted to Education Scotland in September 2018 for final sign off.

4. Overview of the Northern Alliance Regional Improvement Plan

4.1.

The following high-level priorities are outlined in the Northern Alliance Regional Improvement Plan, attached as Appendix 1 to this report:

- Priority 1: Improvement in attainment, particularly literacy and numeracy.
- Priority 2: Closing the outcome gap between the most and least disadvantaged children.
- Priority 3: Improvement in children and young people's health and wellbeing.
- Priority 4: Improvement in employability skills and sustained, positive school leaver destinations for all young people.

4.2.

These priorities are aligned to the aims of the Scottish Attainment Challenge and the National Improvement Framework. However, while the priorities outlined in the Regional Improvement Plan highlight the priorities of the National Improvement Framework, the activities and outlook of the Northern Alliance are far broader. The Northern Alliance champions a child and family-centred approach to address the achievement gap and to drive improvement. To help realise the priorities, there are 13 workstream programmes in the Northern Alliance Regional Improvement Plan. The Northern Alliance collaborative seeks to work in a multi-layered way. Some of the workstream programmes are directed, for example, the Emerging Literacy, Numeracy and Maths Attainment and Modern Foreign Languages programmes contribute to directly improving attainment. A significant number of the workstreams outlined in the Plan cut across all the priorities. These include future delivery models for education and poverty/closing the attainment gap. It is important to note that not all schools will be involved in all improvement activities at any given time.

4.3.

The development of the Regional Improvement Plan has sought to identify how the collaborative will measure progress as well as refine existing measures. The Performance and Data Sharing workstream continues to work closely with Education Scotland to develop a data sharing agreement. The Performance and Data Sharing group has also continued to identify key data sets to provide baseline data for the collaborative.

4.4.

Several of the workstreams are maturing and others are now emerging and beginning to embed across the collaborative.

4.5.

In support of the delivery of the Regional Improvement Plan the collaborative is drafting a workforce plan which will identify the resources available to ensure workstreams are effectively resourced. This workforce plan will also consider resource from Education Scotland.

5. Links to Council Plan

The proposals in this report support and contribute to improved outcomes for communities as outlined in the Council Plan strategic priority of Thriving Communities.

6. Links to Local Outcomes Improvement Plan

The proposals in this report support and contribute to improved outcomes for communities as outlined in the Local Outcomes Improvement Plan priorities of Strong Communities and a Vibrant Economy.

7. Human Resource Implications

7.1.

Although at this point in time there are no direct Human Resources implications arising from the recommendations of this report, there are aspects of the Regional Improvement Plan which could impact on the Council/Service workforce planning processes and/or have possible future implications for staffing or working practices.

7.2.

It is therefore recommended that Human Resources should be kept up to date and involved as appropriate with the work linked to the Northern Alliance Regional Improvement Plan.

8. Financial Implications

8.1.

At this point in time there are no direct financial implications arising from the recommendations of this report.

8.2.

The Northern Alliance has secured funding from the Scottish Government of £385,000 for 2017 to 2018 and 2018 to 2019. The funding will enhance the work of the Northern Alliance to strengthen resources that support learning and teaching.

8.3.

The Northern Alliance has also been awarded £40,000 from the Gordon Cook Foundation.

8.4.

Both of the above funding is used across the Northern Alliance to support its developments and is managed on behalf of the Alliance by Moray Council.

8.5.

In his Ministerial Statement in June 2018, the Deputy First Minister indicated that £10 million would be provided by the Scottish Government to support the work of the Regional Improvement Collaboratives nationally. Discussions with COSLA, ADES and other stakeholders with the Scottish Government are underway to agree a distribution methodology across the eight Regional Improvement Collaboratives.

9. Legal Aspects

9.1.

In terms of section 56(5) of the Local Government Scotland Act 1973, two or more local authorities may discharge any of their functions jointly and, where arrangements are in force for them to do so.

9.2.

However, it is not a legal entity or formal agreement that is proposed but a collaborative arrangement brought about to provide additional and enhanced educational function to each education authority involved and as such to improve educational outcomes.

9.3.

The proposed Educational Bill 2018 which deals with the matters covered by this report, has been put in abeyance for a period of at least one year to allow local authorities to work in partnership to seek to improve outcomes in what the Deputy First Minister suggests would be a speedier manner than laying down legislation would have permitted.

1. Introduction

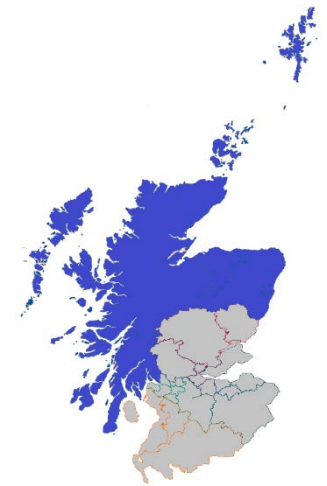

The Northern Alliance is a collaboration between eight local authorities, across the North and West of Scotland: Aberdeen City, Aberdeenshire, Argyll and Bute, Eilean Siar [Western Isles], Highland, Moray, Orkney Islands and Shetland Islands. Our shared vision is to improve the educational and life chances of our children and young people. To remove the barriers to learning and improve children's outcomes, the collaborative seeks to build on the strengths of shared service development, create professional networks and deliver continuous professional development. The Northern Alliance exists to make a difference to the lives of children and young people by ensuring that the professionals who work with them collaborate for improvement and impact. The reach of the Northern Alliance is vast, covering 58.4% of the landmass of Scotland, yet it represents a small percentage of the Scottish population. This area has amongst the highest levels of rurality and the lowest levels of population density within a context of economic fragility and poverty. It also includes two of Scotland's cities. The geography and common challenges experienced across the region moved the Alliance to identify new ways of working and adopt a shared approach to the communities it represents in the north of Scotland and in the islands.

In response to the Governance Review of Scottish Education, the Alliance has sought to further develop its culture of collaboration. This has resulted in the sharing of expertise in a range of areas: curriculum development, school estates, early years and Integrated Children's Services development, as well as establishment of local and regional networks. Partnership working has enabled the Northern Alliance to deliver programmes such as Emerging Literacy and Leadership Development, which are already benefiting schools and teachers across the region. The Raising Attainment in Literacy, Language and Communication workstream is currently providing direct support to practitioners in 47% of primary schools across the Northern Alliance.

A key strength of the Northern Alliance is found in its commitment to distributed leadership at all levels. This approach allows flexible and organic partnerships to emerge, which cross professional and geographic boundaries. This 'bottom up' approach is reflected in the origins of a number of the Alliance's workstreams such as the Equalities group and more generally, in the practitioner informed approach that shapes all our activities.

By building on our collective experiences as a regional improvement collaborative we are confident we can make a meaningful difference to the lives of children and young people. To measure our impact the Alliance is committed to evaluating performance data through the use of pupil data. Alongside the use of quantitative data, we draw on qualitative data to capture information from teachers and practitioners, which is collated into the formal evaluation of programmes. Our commitment to ongoing evaluation across all of the programmes allows the Alliance to measure impact and target improvement. We aim to grow and develop this approach with other partners – such as NHS, universities and national agencies.

Central to the work of the Alliance is the Scottish Attainment Challenge and the shared aim to achieve equity in educational outcomes, with a focus on closing the poverty related attainment gap. This is of particular interest to the Northern Alliance given the aforementioned challenges experienced by the region. To

this end, the high-level priorities outlined in the Northern Alliance Regional Improvement Plan are aligned to the aims of the Scottish Attainment Challenge and the National Improvement Framework [NIF hereafter].

The Northern Alliances seeks to deliver on the following priorities:

- Priority 1: Improvement in attainment, particularly literacy and numeracy
- Priority 2: Closing the poverty related attainment gap between most and least disadvantaged children
- Priority 3: Improving the structures which help children and young people's health and wellbeing
- Priority 4: Improvement in employability skills and sustained, positive school leaver destinations for all young people

As a group of eight local authorities we are committed to improving outcomes and closing the gap, which exists across our wide and varied communities and crucially, keeping the child and family at the centre of all that we do. Schools, teachers and headteachers have a clear role to play, but for too many young people and families, this is not enough. Some of our young people and their families require family support workers, social workers, school nurses and many others besides. While the priorities outlined in the Regional Improvement Plan support the aims of the NIF, the activities and outlook of the Northern Alliance is far broader. The Alliance champions a child and family-centred approach to address the achievement gap and to drive improvement.

To realise our vision, we work in a multi-layered way. Some programmes are directed, such as those which support the above-mentioned priorities. The Emerging Literacy, Numeracy, Maths Attainment and Modern Foreign Languages programmes contribute to directly improving attainment. A significant number of our workstreams have cross cutting themes and are reflective of the leadership ethos which we have promoted over the last three years. These workstreams not only reflect the wider imperative to improve all services but have come about by middle managers and leaders recognising the benefits of collaboration to improve services more quickly and sustainably. However, not all schools will be involved in all improvement activities at any given time.

The Northern Alliance is a committed learning collaborative and as such will continue to learn as programmes embed and develop, we are committed to working in partnership nationally, regionally and locally and welcome wider collaborations and learning which develop impact and drive improvement across the country. During the drafting of the second phase of the plan, the Northern Alliance has sought to engage with all stakeholders, consulting with teachers, head teachers, children and young people, parents and guardians and elected members from across the region. The Northern Alliance will continue to learn from what works well, where change is needed and importantly react to feedback and requests from schools and teachers to aid their work with children and young people.
