#### 1. Introduction

The Northern Alliance is a collaboration between eight local authorities, across the North and West of Scotland: Aberdeen City, Aberdeenshire, Argyll and Bute, Eilean Siar [Western Isles], Highland, Moray, Orkney Islands and Shetland Islands. Our shared vision is to improve the educational and life chances of our children and young people. To remove the barriers to learning and improve children's outcomes, the collaborative seeks to build on the strengths of shared service development, create professional networks and deliver continuous professional development. The Northern Alliance exists to make a difference to the lives of children and young people by ensuring that the professionals who work with them collaborate for improvement and impact. The reach of the Northern Alliance is vast, covering 58.4% of the landmass of Scotland, yet it represents a small percentage of the Scottish population. This area has amongst the highest levels of rurality and the lowest levels of population density within a context of economic fragility and

poverty. It also includes two of Scotland's cities. The geography and common challenges experienced across the region moved the Alliance to identify new ways of working and adopt a shared approach to the communities it represents in the north of

Scotland and in the islands.

In response to the Governance Review of Scottish Education, the Alliance has sought to further develop its culture of collaboration. This has resulted in the sharing of expertise in a range of areas: curriculum development, school estates, early years and Integrated Children's Services development, as well as establishment of local and regional networks. Partnership working has enabled the Northern Alliance to deliver programmes such as Emerging Literacy and Leadership Development, which are already benefiting schools and teachers across the region. The Raising Attainment in Literacy, Language and Communication workstream is currently providing direct support to practitioners in 47% of primary schools across the Northern Alliance.

A key strength of the Northern Alliance is found in its commitment to distributed leadership at all levels. This approach allows flexible and organic partnerships to emerge, which cross professional and geographic boundaries. This 'bottom up' approach is reflected in the origins of a number of the Alliance's workstreams such as the Equalities group and more generally, in the practitioner informed approach that shapes all our activities.

By building on our collective experiences as a regional improvement collaborative we are confident we can make a meaningful difference to the lives of children and young people. To measure our impact the Alliance is committed to evaluating performance data through the use of pupil data. Alongside the use of quantitative data, we draw on qualitative data to capture information from teachers and practitioners, which is collated into the formal evaluation of programmes. Our commitment to ongoing evaluation across all of the programmes allows the Alliance to measure impact and target improvement. We aim to grow and develop this approach with other partners – such as NHS, universities and national agencies.

Central to the work of the Alliance is the Scottish Attainment Challenge and the shared aim to achieve equity in educational outcomes, with a focus on closing the poverty related attainment gap. This is of particular interest to the Northern Alliance given the aforementioned challenges experienced by the region. To

this end, the high-level priorities outlined in the Northern Alliance Regional Improvement Plan are aligned to the aims of the Scottish Attainment Challenge and the National Improvement Framework [NIF hereafter].

The Northern Alliances seeks to deliver on the following priorities:

- Priority 1: Improvement in attainment, particularly literacy and numeracy
- Priority 2: Closing the poverty related attainment gap between most and least disadvantaged children
- Priority 3: Improving the structures which help children and young people's health and wellbeing
- Priority 4: Improvement in employability skills and sustained, positive school leaver destinations for all young people

As a group of eight local authorities we are committed to improving outcomes and closing the gap, which exists across our wide and varied communities and crucially, keeping the child and family at the centre of all that we do. Schools, teachers and headteachers have a clear role to play, but for too many young people and families, this is not enough. Some of our young people and their families require family support workers, social workers, school nurses and many others besides. While the priorities outlined in the Regional Improvement Plan support the aims of the NIF, the activities and outlook of the Northern Alliance is far broader. The Alliance champions a child and family-centred approach to address the achievement gap and to drive improvement.

To realise our vision, we work in a multi-layered way. Some programmes are directed, such as those which support the above-mentioned priorities. The Emerging Literacy, Numeracy, Maths Attainment and Modern Foreign Languages programmes contribute to directly improving attainment. A significant number of our workstreams have cross cutting themes and are reflective of the leadership ethos which we have promoted over the last three years. These workstreams not only reflect the wider imperative to improve all services but have come about by middle managers and leaders recognising the benefits of collaboration to improve services more quickly and sustainably. However, not all schools will be involved in all improvement activities at any given time.

The Northern Alliance is a committed learning collaborative and as such will continue to learn as programmes embed and develop, we are committed to working in partnership nationally, regionally and locally and welcome wider collaborations and learning which develop impact and drive improvement across the country. During the drafting of the second phase of the plan, the Northern Alliance has sought to engage with all stakeholders, consulting with teachers, head teachers, children and young people, parents and guardians and elected members from across the region. The Northern Alliance will continue to learn from what works well, where change is needed and importantly react to feedback and requests from schools and teachers to aid their work with children and young people.

Literacy Equipping education practitioners with the knowledge, understanding and skills to support children's early literacy, language and communication development.	A group of Lead Practitioners will be trained to support sustainability of the approach at local level using a suite of professional learning resources.	June 2019	Leads: James Cook	Qualitative feedback from: Lead Practitioners; Local Networks led by the Lead Practitioners; Practitioners involved from educational psychology and allied health professionals.	By June 2019, programme will be self-sustaining.	

Key Drivers: ACP SL TP PI	Case studies will be captured and shared, detailing the impact on practice and the outcomes for children.			Quantitative data analysis on 'Achievement of CfE Levels' data: -Y1: 2016/2017; comparison of those involved and those not involved in the workstream -Y2: 2017/2018; comparison of those involved and those not involved in the workstream.  Qualitative data from practitioners within each of the local networks.  Qualitative feedback from case studies in supporting school improvement	In 2018/2019, 300 schools in the local authorities who are part of the Northern Alliance Emerging Literacy workstream will be supported in taking a developmental approach to Emerging Literacy.  Practitioners will report an increase in knowledge, understanding and confidence in children's early literacy, language and communication skills.  Schools will have case studies to reflect on to support their own school improvement  Scottish Government Stretch Aim: By 2020, at least 85% of children within each SIMD quintile will have successfully achieved early level literacy.	/40

#### **Cross Cutting Themes**

The cross-cutting themes support the delivery of the priorities yet some of these activities do not necessarily have tangible measures. This reflects the Northern Alliance's wider outlook and activities as a collaborative, some of which pre-dates the Northern Alliance's collaborative working with Education Scotland.
