Child Protection Case Conferences

Your views

A child protection case conference is being held because there are concerns that your child has suffered or is at risk of harm.

It would be helpful if you could complete this form so that the professionals who will attend this meeting know what you think.

What are your concerns about your child at this time?

As a parent/carer what support have you found helpful in the past?

What do you think would help to keep your child safe?

If you are attending a Review Case Conference:

What do you think has helped to keep your child safe?

What, if anything, has made things better since the last meeting?
